

Stack Rack Questionnaire – June 2024

The 4 frames “ASR-2000-1600” are free of charge for field testing, if they cause any damages like braking of glass, Aacken or Aachen industries are not responsible.

Please provide feedback at your earliest convenience.

Future updates:

- We are producing new rubber moulds to fit the rubber better on the frame.
- A new strap system with ‘foam blocks’ for extra safety retention.

- Would a truck body mount be of interest?
- Would a shorter version be of interest?

Responses please email: team@aacken.com

Thank you for your interest in Aacken’s Stack Rack
